## President election

This election is for a single position. Only one candidate is successful. A club with more than one vote may assign all its votes to one candidate or may split its vote between the candidates.

## Executive Election

There are 13 positions to be filled.

A club with 1 vote can vote for up to 13 people. A club does not have to vote for 13 people - a club may choose to vote for any number between 0 and 13.

A club with more than 1 vote may allocate the votes as they see fit subject to these restrictions.

The maximum number of votes you can give any one candidate is the number of votes your club has.

The total number of votes cast for the Executive must not exceed $13 x$ the number of votes your club has. EG: If your club has 3 votes then no Executive candidate can have more than 3 votes from your club and the total number of Executive votes exercised by your club must not exceed $39=13 \times 3$.
